

*The following letter is written by Jason Cohn who had applied for our stethoscopes through a scholarship. He will be attending New York College of Osteopathic Medicine Here is part of what he had to say.*

Madachy Family,

I cannot express how honored and thrilled I am at this moment. I will remember this day for the rest of my life. When I applied for this wonderful opportunity I was worried that I'd be unable to express myself through writing. I am so glad that I was able to make a connection with your family. I was so proud to apply because Jason and I share similar qualities, besides our names of course:) This is such an honor, and my family couldn't be prouder.

I cannot thank you enough for honoring me. I will remember your family and this moment forever.
