

— Jason —

I don't think anyone can really describe Jason in a few words. He was much more than that. I was part of PhiDE with Jason, and my fondest memory was when he came up with a history of PhiDE, giving all the exec fake middle names. He had me on the floor laughing as he usually always did.

I miss Jason almost every day. I think about him all the time. I wear my Jason bracelet every day and quickly rattle off how amazing he was to every one that asks what the bracelet is for. He will be sorely missed, but never forgotten because people like Jason never are. He lives on.

All my love, Caitlin Newman
